Hyoscyamus nigra

The background of the slide features a large, abstract graphic element in the upper right corner. It consists of several overlapping, thin, light-green triangles of varying sizes and orientations, creating a sense of depth and movement. The rest of the slide is white, with the text centered in the upper left area.

He reproaches others, and
complains of injustice that he
imagines has been done to him.
They babble out almost everything
a sensible person would have kept
silence about all his
life. (Hahnemann)
