F.No.14-4/2020-CCH/ 3264

Date: 19 OCT 2020

To,
The Principals
Of all Homoeopathic Medical Colleges/Institutes
(Including N.I.H., Kolkata)

Sub: Public Health Response to COVID-19: Campaign for COVID-Appropriate Behaviour- reg.

Madam/Sir,

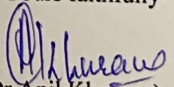

With reference to the D.O. letter no. W- 11030/7/2020-IEC-Part (3) dated 12.10.2020 received from Ministry of AYUSH, Government of India Council appreciates your prior efforts taken for the awareness and immunity booster to the public during the Covid-19 pandemic. Your role in pandemic has been impactful in terms of providing prophylactic medicine to masses. It is also heartening to know that some of the hospitals have been designated as Covid Care Centres. From the early part of the pandemic and till now your college has been distributing Arsenic Album 30 as immune-booster in community and you are already aware about the expected 2nd wave of the infection in upcoming winters. Accordingly to prevent that, a booster dose should be distributed again to masses along with maintenance of the data in the earlier given format.

Along with the distribution of immunity booster, colleges can further follow the instructions for the awareness amongst the local population under 'Jan-andolan', as part of AYUSH for Immunity Campaign.

- To conduct a rally/march of interns/faculty/staff in small groups displaying the Covid-19 posters in local language. The rally should be 3-4km surrounding the college premises, covering 7-8 different directions and in small groups while maintaining the social distancing norms. The population covered should be noted and informed. For rally/march, permission of the local authority may be sought in advance.
- Wider display of the posters using the social media for the awareness of the community about the Arsenic Album 30 (immunity booster) distribution by the college. Setting up of fixed days and fixed kiosks for distributing the medicine while maintaining all the data.
- Further innovative ideas are also welcome to increase the awareness and which will help in containing the Covid-19 infection in local population.

All these activities are in the interest of general public and creating awareness about the Covid-19. You are requested to kindly follow the above instructions and report about the activities within a period of 7 days of undertaking the activity.

Yours faithfully

(Dr. Anil Khurana)
Chairman of BoG
