MANGO SEED PULP SOUP AS IMMUNITY BOOSTER.

Take the seed of a mango fruit, wash it, wipe the moisture, dry in hot sun for a few hours and then keep this mango seed immersed in rock salt for at least three days. [You can keep this for 1-2 years also.] During any epidemic/PANDEMIC, put this seed (kept inside the rock salt) in six glasses of water and start boiling. Grind cumin, cocoanut, red chilli and shabdkosh or fenugreek (வெந்தயம்) and add these to the boiling water. Also, add thick buttermilk (otherwise called *lassi* in Hindi.) Boil for 15-25 minutes. Then fry mustard, red chilli and asafoetida in little edible oil, add these into the boiling water and put off the flame. This is now ready for serving. The boiling water would suck the effects of the pulpy portion inside the seed, because boiling water would open the outer portion of the seed and water would enter inside the seed absorbing the medicinal effects of the pulpy portion.

Up to five persons can use this. Add this soup to freshly cooked hot rice, mix and eat. This was being followed fifty years ago during any type epidemics/pandemics; now went into

oblivion. This would prevent epidemic and pandemic. Take this once in 7-10 days until corona disappears from the earth. This mango-seed soup mixed with cooked rice and taken increases IMMUNITY power and corona or Black Fungus (Mucormycosis) will not enter your body.

We have two types of Herbal Remedies **to boost Immunity Power during all types of epidemics/pandemics**. Both are recommended. [Rate of success: More than 90%]

1. ANCIENT HERBAL REMEDY: One pack of about 120 pills: Rs.1590=00). Two pills for a dose, taken any time, ONCE IN EVERY MONTH as a prevention. Persons with symptoms of corona and/or those tested positive may take two pills, once only. NOT TO BE REPEATED. Any age and persons with any disease or under any treatment/drugs can take. No diet restrictions. Please do not ask do's and don'ts.
2. IMMUNITY BOOSTER: [Mixture of Ancient Herbal Remedies and DR BACH FLOWER REMEDIES OF ENGLAND. Discovered & Introduced by Dr. Edward Bach, MBBS, MRCS of London]. [one pack of 240 pills: Rs.1500=00). In addition to the above

Ancient Herbal Remedy, you have to also take this IMMUNITY BOOSTER. This is to be taken on all Sundays/Tuesdays/Thursdays (two pills once a day) until pandemic is completely eradicated in India. Like this, you take thrice a week as a preventive.

Dr. Edward Bach,
MBBS, MRCS of
London

[Persons with symptoms of corona and/or tested positive may take this IMMUNITY BOOSTER thus: Take 2 pills for a dose, thrice daily for three days only. After that, you may take thrice a week.]

To summarize,

- (A) Ancient Herbal remedy once a month, as a preventive. Those tested positive or with symptoms of corona may take one dose only and not repeatedly.
- (B) Immunity Booster also to be taken thrice a week, say, Sundays/Tuesdays/Thursdays (two pills on each of these days) as a preventive. Persons tested positive or with symptoms of corona may take this thrice daily for three days. After that thrice a week,

to be continued until corona is completely eradicated in India.

IMMUNITY BOOSTER FOR BLACK FUNGUS OR MUCORMYCOSIS.

Dr Bach Remedy/Homoeopathy medicine for the present day Black fungus or Mucormycosis?

In an interview in Polymer Tamil TV channel an allopathic doctor described that the Black fungus starts as a reddish spot on left cheek and then the left eye and nose get swollen, with coryza, followed by bleeding etc. If what that doctor had stated is correct, I can easily show the reader the correct homoeo/Dr. Bach reedy for black fungus.

Anyone (without any previous knowledge or experience of homoeopathy) can select the correct remedy and thus cure at least seven out of every ten patients seen by him, with the use of one homoeopathy reference book alone *viz.*, *HOMOEOPATHIC THERAPEUTCS* by Dr. Samuel Lilienthal, M.D. of U.S.A. [It is altogether a sorry state of affairs that most homoeopathy practitioners as well homoeopathy-teaching professionals either have no knowledge of Lilienthal or a handful of those having a copy of

this valuable reference book, have never used nor know how to use Lillienthal.]

According to allopathic doctors in hospitals, the following symptoms are found in the present day Mucormycosis victims:

Pustular conjunctivitis . . . fistula lachrymalis discharging pus when pressed; frequent rubbing of eyes for relief.

Nosebleed, blood partly fluid and partly clotted, intermitting in intensity . . .

On page 809 and 398 in Lillienthal's HOMOEOPATHIC THERAPEUTICS, we find, inter alia, the above symptoms under the remedy *Pulsatilla* (in the chapter **Ophthalmia and other affections of Eye** and another chapter **Epistaxis, Nosebleed.**)

Drop the symptom in Lillienthal and you get the remedy!

Be that as it may.

The cardinal symptom of the homoeo remedy *Pulsatilla* are: 'congestion to single part' and 'complaints appears on one-half of the body.' (Hering's GUIDING SYMPTOMS—10 VOLUMES and Oscar E. Boericke's REPERTORY) Combining this with the above extracts from Lillienthal, even a novice can certainly say that *Pulsatilla-1000X*,

two pills given for a dose, once only, would give total success for the victims of Black fungus—
Rate of success : 90%. No need to repeat at all. One single dose is enough.

Go to a nearby homoeo store and do not ask orally. Write on paper as under, and hand over the slip to the shopkeeper.

5 ML pills
PULSATILLA-1000x

[This 5ML contains about one hundred pills. Two pills are given for a dose, once only. About fifty persons can take this. No diet restrictions. Can be taken any time. Pregnant women, children, persons taking other treatment/drugs, all can take. If you are not getting Pulsatilla-1000x locally, you may get it from me by post by sending Rs.750 by money order or bank transfer.

We also have also another remedy for BLACK FUNGUS. It is in the system of Dr. BACH

FLOWER REMEDIES. Some of the symptoms in the Dr. Bach remedy Elm are given below:

- 1) Escape of fluid from one part to another— Hydrocele, hydrocephalus, glaucoma etc...(Mucormycosis patients have coryza, then discharge of altered color discharges, bleeding.) For frequent catching a cold, it is Aspen. However, perennial coryza or any fatal discharge from nose is Elm.
- 2) In our books and notes on Dr. Bach Flower Remedies Practice, we have repeatedly said that for bleeding from external parts after an accident, the remedy is, of course, Rock Rose. Elm is for internal haemorrhage.

Therefore, Dr. Bach remedy Elm may be given three doses only (every 30-60 minutes) for Mucormycosis or Black fungus/Black fungus. This Dr. Bach Remedy ELM (10ML PACK OF ABOUT 250 PILLS) can be had from me by sending Rs.750=00.

I am the same Dr. V. Krishnamurthy, (now 75 years of age) who first suggested the homoeo medicine *Bryonia-1000*, one single dose treatment for *dengue fever* and thousands of patients got total relief with one single dose. Even those children in i. c. unit were discharged in a day or two, after giving one dose.

So also, I am the same Dr. V. Krishnamurthy of Chennai who is the first to suggest the name of another homoeo medicine *Boletus Laricis-10M* (otherwise called *Polyporus officinale*) for *chikungunya* disease and with this remedy given in single dose, thousands of victims, without exception got total relief.

So also, the dreaded *swine flu*, as suggested by me first, was magically relieved totally in just a few hours of taking one dose of another homoeo remedy Merc-sol-10M. A Letter from a medical practitioner whose wife was totally relieved with one dose of the homoeo remedy Merc-sol-10M is given below
