Respected Shri Narendra Modi Ji,

I am writing to you with reference to the available treatments for COVID-19. Homeopathy has been found to be very effective in treating viral infections, both as an immunity boosting supplement and to treat symptoms of diseases.

The Ministry of AYUSH has already recommended homeopathy medicine for prevention as well as for treatments of COVID-19. As no Allopathy treatment is currently available for the infection, the Government should lay stress on indigenous treatments such as AYUSH and Homeopathy. The PMO should therefore send policy directions to all State Governments to use local Homeopathy and AYUSH doctors to provide appropriate treatment protocols for the quarantined and the general public to boost their immune system.

If we were to use our indigenous medicines effectively, India would become a role model for the rest of the world which would augment our soft power immensely. Even Prince Charles was cured by an Indian Homeopathic doctor Dr. Isaac Mathai of Soukya in Bengaluru. Prince Charles was cured in a matter of days.

I would be obliged if the aforementioned recommendations could be acted upon at the earliest.

Regards,

Yours Sincerely

Manish Tewari
