MENTAL Symptoms

- Anger: Whenever someone insult her or do something which she feel unfair this leads to anger. She tries to control her anger as much as possible. But after certain limit she can not hold her anger and loses her temper. This anger is mostly due to feeling of injustice or when she feels she is humiliated.
 - Reaction: She controls her anger in front of elders in order to respect them and in front of others. The reason is she feels that other person will get hurt. In case when she shows her anger after that she feels guilty for that. When ever she controls her anger it leads to trembling “Ander se cupcuppy aati he”
- She also feel angry when someone ask or compare her on the topic of a child her words were “Bachche dena Allah ke hath me hai, mere hath me thodi hai”

Continued.....

MENTAL Symptoms

- She also try to suppressed her anger as much as possible but when ever she does that it leads to over think about that topic for minimum 2 days.
- She feels very good when someone console her. “koi dilasa ya tasalli deve to achhha lagta hai”
- ☐ She is very sensitive. She also over think when she hear things of others. Even small-small things effects her.

- ☐ Sometimes suppression of anger makes her cry.

MENTAL Symptoms

- ❑ Fear Of Height leads to Vertigo
- ❑ Fear Of Plane Crash : Can not show anxiety but fear from within.
- ❑ She dislike when some one talk about behind her back.
- ❑ She says “Me agar sahi hu to ku daru”
- ❑ She feels like “No one understood her”
- ❑ Suffocated feeling in chest after anger.
- ❑ Aversion to Coition.

- AMH
- Serum TSH

Analysis and Evaluation of the Case

- Classification of Symptoms
 - Amenorrhea since 3 months. (CPP)
 - Burning in female genital tract.
 - < During & After Coitus (UPP)
 - Pain on lateral aspect of Pelvic region (UPP)
 - Pain <changing position. (UPP)
 - Lachrymation from left eye which come suddenly and relieve suddenly. (UPP)
 - C/o recurrent sties. (UPP)
- (UPP - uncommon physical particular)
(CPP- common physical particular)

Continued.....

- Classification of Symptoms

- C/o recurrent UTI after marriage.(UPP)
- Suffocated feelings in closed vehicle. (UPG)
- Menses irregular profuse mostly clotted small like meat. (UPP)
- Burning in urine before and after menses. (UPP)
- During Menses appetite decreased.(UPG)
- Sweat profuse, excessive on front of chest. (UPG)
- Patient is hot++(UPG)

(UPG-uncommon physical general)

Continued.....

-
- All complains > when someone console her.(UMS)
 - Desire for ice cream, and watermelon.(UPG)
 - Sensitive to injustice, very sensitive to slightest mental impression.(UMS)
 - Pigment & pimples on the face.(UPP)
 - Aversion to coition(UMs)

UNCOMMON MENTAL

- Anger: Whenever someone insult her or do something which she feel unfair this leads to anger. She tries to control her anger as much as possible. But after certain limit she can not hold her anger and loses her temper. This anger is mostly due to feeling of injustice or when she feels she is humiliated
 - She also try to suppressed her anger as much as possible but when ever she does that it leads to over think about that topic for minimum 2 days.
 - She feels very good when someone console her. “koi dilasa ya tasalli deve to achhha lagta hai”
 - She is very sensitive. She also over think when she hear things of others. Even small-small things effects her.
 - Fear Of Height leads to Vertigo.
 - Suffocated feeling in chest after anger.
 - Aversion to Coition
-

Uncommon Physical General

- Suffocated feelings in closed vehicle.
- During Menses apatite decreased.
- Sweat profuse, excessive on front of chest.
- Patient is hot++
- Desire for ice cream, and watermelon.

UNCOMMON PHYSICAL PERTICULAR

- Burning in female genital tract.
- < During & After Coitus
- Pain on lateral aspect of Pelvic region
- Pain <changing position.
- Lachrymation from left eye which come suddenly and relieve suddenly.
- C/o recurrent sties.
- C/o recurrent UTI after marriage.
- Menses irregular profuse mostly clotted small like meat.
- Burning in urine before and after menses.
